RULES

The rules in this section govern the writing of all auto policies.

RATE SECTION RULES

ACCIDENT RECORD RATING PLAN (ARRP) (SFM Only)

The base premiums for the bodily injury and property damage liability, personal injury protection, medical payments, and collision coverages, applicable to a private passenger automobile as defined in Rule 201 - Private Passenger Automobile Defined shall be subject to adjustments determined in accordance with the following provisions:

A. **Charges Reference Table**

The adjustments in the table below will be used to develop the surcharge applicable to each policy:

Category	Adjustment
Category A	10%
Category B	30%
Category D	50%

Note: See Section F. for adjustments to be used when the policy had been receiving an accident-free discount.

B. **New Business Rating**

A Category A adjustment shall apply if, in the three year period prior to the date of application, there are any chargeable accidents. The adjustment shall apply for a period of not more than three years, but it will not apply to any policy period that begins more than three years from the date of the accident.

An accident shall be considered chargeable if it resulted in damage to any property in the amount of $750 or more.

C. **Subsequent Rating**

1. **Chargeable Accidents**

An accident shall be chargeable as of the date the Company has recorded payments totaling $750 or more under property damage liability coverage and collision coverage combined. In the event of a multiple vehicle accident, property damage liability payment must be present for a claim to be considered chargeable.

2. **Premium Surcharge**

©, Copyright, State Farm Mutual Automobile Insurance Company 2024
No reproduction of this copyrighted material allowed without express written consent from State Farm®

The surcharge applicable during a policy period is determined by totaling the separate charges for the individual accidents which became chargeable during the three year period ending two months prior to the current expiration date.

3. **Accident Charges**

The charge for a specific accident shall be:

a. Category A if there were no other chargeable accidents during the three years preceding the date this accident became chargeable;

b. Category B if there was only one other chargeable accident during this period and its charge was Category A;

c. Category D in all other instances.

Except as set forth in the Miscellaneous Provisions section of this rule, the accident charge shall apply to the policy providing the coverage under which the claim payment has been made and each charge shall apply for a period of three years from the renewal date on which it was originally applied.

D. **Chargeable Accident Exceptions**: An accident shall not be considered at-fault, nor chargeable, if the Company is furnished sufficient evidence:

1. that the driver involved in the accident was less than 50% at fault,

2. that the accident was caused by contact with birds, animals, missiles, or falling objects; or

3. that the driver involved in the accident was:

a. lawfully parked; or,

b. reimbursed by, or on behalf of, a person responsible for the accident or has judgment against such person; or,

c. struck in the rear by another vehicle and has not been convicted of a moving traffic violation in connection with the accident; or,

d. hit by a "hit-and-run" driver if the accident is reported to the proper authorities within 24 hours; or,

e. not convicted of a moving traffic violation in connection with the accident, but the driver of the other automobile involved in the accident was convicted of a moving traffic violation; or,

f. operating a vehicle of a type not eligible for rating under this rule.

Note: The term "convicted" includes a plea of guilty or forfeiture of bond.

E. **Miscellaneous Provisions**

1. The premium surcharge shall be unaffected by changes requiring a policy transfer or by changes in the territory, use, or driver classification of the policy.

2. If the Company is furnished evidence during the three year period subsequent to the date the accident became chargeable, that the driver involved in the chargeable accident will no longer be a resident of the named insured's household, or will not be a driver of the automobile insured under the policy, then that accident will no longer be used in determining the current accident charge or accident-free discount on the policy. However, if the driver continues to be insured with the Company on another policy, the accident will be considered in the rating of that policy.

3. For initial rating under the New Business provisions of this rule, the premium adjustment for each automobile will be determined based on the accident record of the **assigned drivers** of that automobile. If a new driver is assigned after the policy has been initially written, that driver's prior record will be considered in the subsequent rating of the automobile.

4. If the driver involved in a chargeable accident is currently an **assigned driver** of an automobile insured in State Farm Fire and Casualty Company, that accident shall not be used in determining the current accident surcharge, but shall be reflected in that person's driving record for the purpose of determining the Driver Record Charges on the State Farm Fire and Casualty Company policy.

5. If a driver is involved in a chargeable accident while driving an automobile insured with State Farm Fire and Casualty Company, and is not an **assigned driver** of an automobile insured in State Farm Fire and Casualty Company, that accident will be considered in determining the current premium surcharge applicable to the automobile insured in State Farm Mutual Automobile Insurance Company to which that driver is assigned.

6. A driver previously insured in State Farm Fire and Casualty Company and now being insured in State Farm Mutual Automobile Insurance Company shall be considered as renewal business subject to the provisions of this rule, provided the effective date of the insurance coverage is within three years of the termination date in the State Farm Fire and Casualty Company.

F. **Accident-Free Discount**

A Category 3 adjustment shall apply to the base premiums for the bodily injury and property damage liability, personal injury protection, medical payments, and collision coverages, applicable to a private passenger automobile if the policy has been in force with the State Farm Mutual Automobile Insurance Company for at least three years and there have been no chargeable accidents during the three year period ending two months prior to the current expiration date.

This discount increases to:

- Category 4 if the policy has been in force for six years,
- Category 5 if the policy has been in force for ten years,

and there have been no chargeable accidents during these time periods.

Category	Adjustment
Category 5	-25%
Category 4	-20%
Category 3	-15%

Note: The time in force provision shall include the time an insured was rated continuously at the 3-Star Discount rate level in State Farm Fire and Casualty Company immediately prior to transferring to State Farm Mutual Automobile Insurance Company.

This discount applies so long as the policy remains in force and there are no chargeable accidents. If there has been a chargeable accident and the policy has been in force for at least nine years and there have been no chargeable accidents during the nine years preceding the date the accident becomes chargeable, the discount will continue. Otherwise, the occurrence of a chargeable accident results in the loss of the discount; however, the normal charge for that accident will be:

- waived (Category 9) if the discount being received was Category 4 or Category 5,
- reduced to Category Z if the discount was Category 3,

so long as there are no other chargeable accidents during the three year experience period.

Category	Adjustment
Category 9	0%
Category Z	5%

A chargeable accident which occurs within nine years of one that was forgiven will be subject to the latter provisions.

G. **Reinstatements**

1. A reinstated policy shall be subject to the New Business provisions of this rule, except that the developed premium surcharge percentages shall be no lower than that which would have been applicable had the policy remained in force.
2. Any accident-free discount applicable at the time of expiration or cancellation will be applied, provided the reinstatement occurs within five years and there have been no accidents during this period which the Company determines to have been the fault of the owner or operator of the automobile being insured. This provision does not apply if the applicant has been insured in the State Farm Fire and Casualty Company during all or part of the intervening time.

H. **Exception:** The following vehicles are not eligible for the Accident Record Rating Plan (ARRP):

1. Motor homes as defined in Rule 401 - Motor Homes, Truck or Van Campers

CUSTOMER RATING INDEX (CRI)

The base premiums for the bodily injury and property damage liability, including personal injury protection, medical payments, comprehensive and collision coverages, applicable to a private passenger automobile as defined in Rule 201 - Private Passenger Automobile Defined or motorcycle as defined in Rule 404 - Motorcycles, Motorscooters, and Motorized Bicycles and the base premiums for the underinsured motor vehicle, emergency road service, car rental and travel expenses coverages, applicable to a private passenger automobile as defined in Rule 201 - Private Passenger Automobile Defined shall be adjusted by the CRI Factor in accordance with the following provisions:

A. **New Business and Subsequent Rating**

A CRI will be used to determine the CRI Factor at the inception of each policy term. That CRI will continue to be used in determination of the CRI Factor for the entire policy term.

When calculating an insurance score, one credit report is ordered per household. The report is ordered for the oldest driver between ages 25 and 64. If no such driver exists, then the report is ordered for the youngest driver over age 64. If still no such driver exists, then the report is ordered for the oldest driver under age 25.

NOTE: Requests to use an updated CRI with current credit history to determine the CRI Factor must be made by the named insured. The updated CRI Factor will be applied to the policy at the next renewal. Such requests may not be made more than once within a twelve-month period.

If there are Washington rules or laws in effect that prohibit the use of credit history, the Company reserves its right to revert to its previously filed and approved rates that do not include the use of credit history, with at least 30 days' written notice to the Department, in SERFF, of the date(s) the rates will revert.

B. **New Business**

New Business CRI Model (PLHC-0H10-NW04-A301-3A02-WA for Private Passenger; MLHC-0H10-A301-3T11-WA for Motorcycles) - The CRI initially assigned will continue to be used in determination of the CRI Factor until a Renewal CRI first applies.

C. **Subsequent Renewals**

Renewal CRI Model (PLRN-0H10-3Q01-0D10-D601-2A01-WA for Private Passenger; MLRN-0H10-3Q01-D002-2A01-WA for Motorcycles) - At each renewal beginning two years from the new business effective date of the policy, the Renewal Model will be used to determine the CRI. Credit history used to determine the CRI will be updated every two years and as requested by the named insured (see Section A). All other information used to determine the CRI will be updated at each policy renewal.

D. **Factors**

The CRI Factor is determined as follows:

1. For bodily injury and property damage liability, including personal injury protection, medical payments, comprehensive and collision coverages, the formula $1.004^{(1600 - CRI)}$ applies if the CRI is 1600 or greater and the policy is also receiving a Category 3, 4 or 5 Adjustment (See Accident Record Rating Plan rule).

3. Otherwise, the formula $1.003^{(1600 - CRI)}$ applies.

4. The CRI Factor shall be rounded to 3 decimal places and is subject to minimum factors as outlined below.

DRIVE SAFE & SAVE™

The bodily injury and property damage liability, personal injury protection, medical payments, collision, and comprehensive coverage premiums applicable to a private passenger automobile as defined in Rule 201 - Private Passenger Automobile Defined shall be reduced for risks who consent to participate in the Drive Safe & Save program, provided the vehicle is eligible for the program.

A. **PARTICIPATION ADJUSTMENT**

The Drive Safe & Save Adjustment Factor shall be equal to the Participation Adjustment Factor for each applicable coverage until the Calculated Annual Mileage can be determined under Section B.

B. **CALCULATED ANNUAL MILEAGE**

The Drive Safe & Save Calculated Annual Mileage Adjustment shall be calculated in accordance with the following provisions:

Note: All Drive Safe & Save participants are eligible for the Calculated Annual Mileage Adjustment.

1. **Determination of Calculated Annual Mileage**

   a. If the number of days of available mileage readings or between available odometer readings is at least 70 days at the time the policy renewal bill is processed, the readings shall be annualized and rounded to the nearest 100 miles to determine the Calculated Annual Mileage.

   b. If the number of days of available mileage readings or between available odometer readings is less than 70 days at the time the policy renewal bill is processed, the Calculated Annual Mileage shall not be determined and the Participation Adjustment Factor shall apply for the entire policy term.

      Note: If the policy renewal bill is being processed for the second policy term after enrolling in the Drive Safe & Save program and less than two odometer or mileage readings are available, the automobile shall be removed from the program for the upcoming policy term.

2. **Calculated Annual Mileage Adjustment**

   a. The Calculated Annual Mileage shall be used to determine the Calculated Annual Mileage Factor from the Rate Section for each applicable coverage.

   b. To determine the Calculated Annual Mileage Adjustment:

      i. Add the Calculated Annual Mileage Factor from Section B.2.a to the applicable Base Driver Factor from the Rate Section.

      ii. Divide that sum by the applicable Base Driver Factor from the Rate Section.

      iii. The Calculated Annual Mileage Adjustment is the factor determined above and rounded to three decimal places.

Note: Use the Base Driver Factor for assigned non-occasional married males for the corresponding age as the applicable Base Driver Factor for the Calculated Annual Mileage Adjustment.

c. If the Calculated Annual Mileage Adjustment can be determined, the Annual Mileage step from the Driver Adjustment Sequence does not apply.

C. **Drive Safe & Save Index (DSSI)**

This DSSI Factor shall be calculated in accordance with the following provisions:

1. **DSSI Eligibility**

   a. Risks who consent to share driving characteristics of the drivers of the vehicle are eligible to receive the Drive Safe & Save Index Adjustment.

2. **Drive Safe & Save Index (DSSI) Factor**

   A DSSI will be used to determine the DSSI Factor at the inception of each policy term. That DSSI will continue to be used in determination of the DSSI Factor for the entire policy term.

   a. If the number of days of available driving readings is at least 70 days at the time the policy renewal bill is processed, the readings shall be used to derive the DSSI in accordance with their credibility.

      Note: Odometer or mileage reading availability may vary from driving reading availability.

      The DSSI Factor is determined by the following formula: (DSSI Offset - DSSI) / DSSI Scale Factor.

Company	DSSI Offset	DSSI Scale Factor
SFM	3000	500
SFF&C	2950	500

b. If the Calculated Annual Mileage from Section B cannot be determined, the DSSI shall not be determined and the Participation Adjustment Factor shall apply for the entire policy term.

D. **Drive Safe & Save Premium Adjustment Factor**

1. The Drive Safe & Save Premium Adjustment Factor is calculated by multiplying the Calculated Annual Mileage Adjustment (Section B) with the Drive Safe & Save Index Factor (Section C), if applicable.

2. The Drive Safe & Save Premium Adjustment Factor shall be no greater than the otherwise applicable Annual Mileage Factor times the factor shown in the table below:

MULTIPLE AUTOMOBILES DISCOUNT

The bodily injury and property damage liability, personal injury protection, medical payments, comprehensive, and collision coverage premiums applicable to a private passenger automobile as defined in Rule 201 - Private Passenger Automobile Defined are reduced when two or more private passenger automobiles, used principally by persons residing in the same household, are insured with State Farm Mutual Automobile Insurance Company or State Farm Fire and Casualty Company. The automobiles must be owned by one or more individuals in the household who are related by blood, marriage, or adoption. An automobile whose use, sale, or replacement is controlled by an individual shall be considered as owned by that individual.

These factors also apply if the automobiles are jointly owned by two unrelated residents and both are designated as named insureds on the policies insuring the cars they jointly own.

This discount also applies to an owned private passenger automobile if the insured has a motor home rated under the provisions of Rule 401 - Motor Homes, Truck or Van Campers, and meets the above requirements. The base rates already include this discount. To remove the discount, increase the Driver Adjustment Factor by the Single Automobile Factors in the Rate Section.

The discount factor for underinsured motor vehicle coverage is shown in the Rate Section.

Note: An automobile which is ordinarily not readily available for use by the insured or by other residents of the same household shall not qualify for the discount afforded by this section; neither shall such an automobile qualify another automobile for such discount.

3. **Exceptions:** An accident shall not be considered at-fault, nor chargeable, if the Company is furnished sufficient evidence:

    a. that the driver involved in the accident was less than 50% at fault; or

    b. that the accident was caused by contact with birds, animals, missiles, or falling objects; or

    c. that the driver involved in the accident was:

        i. lawfully parked; or,

If any violation is subsequently dismissed, it will no longer be considered a chargeable violation.

For purposes of this rule, major violations include:

1. Driving a motor vehicle under the influence of intoxicants or drugs, or having a driver's license suspended or revoked due to refusing to submit to a test for such substances.

7. Racing or engaging in a highway speed contest.

8. Lending a registration or operator's license to another person.

F. **Base Rates:** Each vehicle is rated with the 3-Star Discount, the 2-Star Discount, or the 1-Star rates. The 1-Star rates are the base rates and are used if the vehicle does not qualify for the 3-Star Discount nor the 2-Star Discount.

1. **3-Star Discount**: In order for the insured vehicle to initially qualify for the 3-Star Discount, all other listed requirements for the 2-Star Discount must be satisfied, and the vehicle must also satisfy the following conditions:

   a. All **assigned drivers** on the insured vehicle must have no accidents that became chargeable and no minor violations during the applicable three-year experience period and no major violations during the five-year period.

   b. All **assigned drivers** on the insured vehicle must have no non-chargeable at-fault accidents during the applicable three-year experience period.

   c. If the insured vehicle (or the vehicle it replaced) or any other vehicle in the household was previously rated with the 1-Star Rates, because it was driven without liability insurance in violation of any financial responsibility or compulsory insurance requirement, the insured vehicle will not qualify for the 3-Star Discount until that vehicle has not been driven without liability insurance for two years.

   d. If the insured vehicle does not have at least one **assigned driver** who has been licensed in the United States or Canada for at least 36 months, there must be another vehicle in the household which is already rated with the 3-Star Discount. Furthermore, the other household vehicle must have at least one **assigned driver** who has been licensed in the United States or Canada for at least 36 months.

   The 3-Star Discount will continue to apply, so long as there are no **assigned drivers** with any chargeable accidents or minor violations during the applicable three-year experience period or any major violations during the five-year period. If the 3-Star Discount is lost due to a chargeable accident or violation, in order to re-qualify the vehicle must again meet the requirements listed above.

2. **2-Star Discount:** The 2-Star Discount applies if the insured vehicle does not qualify for the 3-Star Discount and the insured vehicle (or the vehicle it replaced) has not been driven without liability insurance in violation of any financial responsibility or compulsory insurance requirement during the past 12 months.

For vehicles which did not qualify for the 2-Star Discount as new business because they were driven without liability insurance, the 1-Star Rates will apply for a period of one year from the effective date of coverage for that vehicle. After that, the 2-Star Discount will apply for at least one year.

3. **1-Star Rates:** The 1-Star Rate applies if the insured vehicle does not qualify for the 3-Star Discount nor the 2-Star Discount as new business.

G. **Miscellaneous Provisions**

1. For purposes of determining a Driver Record Charge, drivers are assigned to the car they most frequently operate in accordance with Rule 211 - Private Passenger Driver Definitions. Each driver is assigned to only one vehicle. Drivers may not be moved from one vehicle to another for the purposes of affecting the total premium.

2. If there are no **assigned drivers** on a vehicle, that vehicle shall be rated as if all of its drivers were at Driver Record Level 1. Refer to Rule 211 - Private Passenger Driver Definitions.

H. **Exception:** The following vehicles are not eligible for the Standard Tier Automobile Rating (STAR) Plan:

The discount factors are shown in the Rate Section.

A. **Initial Qualifications**: In order to initially qualify for this discount, all drivers under 25 years of age who are assigned to the automobile must:

   1. have no at-fault accidents or moving violations in the three year period prior to the time the discount is initially applied, and

C. **Miscellaneous Provisions:**

   1. If the policy qualified for the Steer Clear Discount prior to its first renewal on or after August 5, 2013 and a female driver with a marital status category of M or P is assigned to that policy as of that renewal, she is exempt from the initial qualifications in Section A above. However:

      a. In addition to the subsequent qualifications in Section B above, the discount shall no longer apply if that female driver has an at-fault accident or moving violation after that renewal; or,

      b. That female driver shall no longer be exempt from the initial qualifications in Section A above if all other qualifying drivers are reassigned to other policies such that there are no drivers assigned to the policy who met the initial qualifications.

      c. If that female driver is reassigned to another policy, she will need to meet the initial qualifications in order for that policy to receive the Steer Clear Discount.

   2. An at-fault accident is one that results in damage to any property. In the State Farm Fire and Casualty Company, an at-fault accident involving death or bodily injury subject to the New Business Rating provision of the Standard Tier Automobile Rating rule shall also prevent a driver from qualifying for this discount. An accident shall not be considered at-fault if the Company is furnished sufficient evidence that the driver involved in the accident was less than 50% at fault.

   3. For new business to qualify, acceptable verification of prior accident-free history will be required.

100 GENERAL RULES

101. COVERAGES

The coverages to which the rates and rules of this manual apply are as described in the insuring agreements of the automobile policy form of the company underwriting the coverage and are subject to the policy exclusions and conditions and to any endorsements which may be attached to such policy.

©, Copyright, State Farm Mutual Automobile Insurance Company 2024
No reproduction of this copyrighted material allowed without express written consent from State Farm®

102. POLICY TERM

Unless otherwise indicated, manual premiums are for a six months policy term. (See Rule 105 - Changes)

A policy term greater than that represented by the manual premium may not be written except under the following conditions when a policy term up to twice as long may be written:

A. when the insured is subject to a statutory or contractual requirement that coverage be written for a longer policy term, or

B. when the Company operating procedures authorize writing a longer policy term.

When a policy subject to one of the above conditions is written, the premiums applicable to each period or portion thereof comprising the extended policy term are determined from manual rules, classifications, and premiums in effect at the inception of the policy with each period independently classified and rated on the basis of factual information available at the beginning of the period, except that any surcharge developed under Rate Section Rules - Accident Record Rating or Standard Tier Automobile Rating Plan shall apply for the entire period of the policy.

If the insurance under an extended term policy is transferred to another policy, the new policy is subject to the manual rules, classifications, and premiums in effect at the time of transfer.

Post Dated Coverages: Provided at least one coverage of insurance is effective at the inception of the term shown in the policy period, a policy may be written to provide for a subsequent effective date for specified coverages.

The pro rata premium for the period of coverage is charged for post dated coverages.

Changes that affect the coverage provided by the policy, or the territory, use, description or rating classification of the risk, may require transfer of the insurance to a new policy or endorsement of the present policy.

106. SUSPENSION OF COVERAGE

Note: See Rule 404 - Motorcycles, Motorscooters, and Motorized Bicycles and Rule 901 - Recreational Vehicles for special provisions applicable to such vehicles.

Suspension of Coverage

Coverage afforded under a policy insuring a motor vehicle may be suspended during the time the vehicle is withdrawn from service. The coverages suspended afford no protection under the policy during the period of suspension. The following rules govern suspensions:

A. Any coverage may be suspended unless it is required by statute to remain in force.

B. Coverage will be reinstated on the date designated by the insured. In the absence of such designation, coverages suspended for the winter season will be automatically reinstated the succeeding April 1.

C. Premium credits on suspended coverages will be computed pro rata for the period of suspension and

   1. will be applied against the next renewal premium if other policy coverages remain in force, or

   2. will be retained by the Company pending reinstatement of such coverages if no policy coverages remain in force. After six months, if the coverages have not been reinstated or a definite reinstatement date has not been established, the policy will be cancelled and the premium credits refunded.

D. Policies covering vehicles rated in accordance with the following rules may not be suspended unless the vehicle has been stolen, destroyed, or sold:

   1. Rule 401 - Motor Homes, Truck or Van Campers

   2. Limited Use Farm Trucks in Rule 116 - Farm Vehicle Limited Usage

107. CANCELLATIONS

Note: If other rules in this manual contain cancellation provisions which are not compatible with this rule, this rule applies only to the extent that it does not conflict with such other rules.

The policy may be cancelled either by the Company or at the request of the insured in accordance with the cancellation provisions of the policy.

Cancellation, whether by the Company or the policyholder, is without prejudice as to any valid claim originating prior to the effective date of cancellation. Cancellations will be made on a pro rata basis.

The following pro rata table is used to determine the portion of premium to be charged or retained. The computation assumes each month has 30 days, except when the cancellation is within 30 days of the beginning (or end) of the policy period in which case the exact number of days in force (or remaining in the term) are used.

212. AGE, GENDER and MARITAL STATUS

A. The procedures below apply to determine each driver's **age** and **marital status** for use in calculating premiums applicable to private passenger automobiles as defined in Rule 201 - Private Passenger Automobile Defined.

1. **Age**

   a. To rate the policy for the upcoming term, use the driver's **age** as of the effective date of the policy.

   b. For newly added drivers, use the driver's **age** as of the effective date the driver was added to the policy. The pro rata premium will be recalculated for the remainder of the policy term using this **age**.

   c. If the driver's **age** at the beginning of the policy term is greater than or equal to 25, that driver will be considered that **age** for the entire policy term.

   d. If the driver's **age** at the beginning of the policy term is less than 25, the **age** will be recalculated on the driver's birthday. The pro rata premium will be recalculated for the remainder of the policy term using this **age**.

2. **Marital Status**

B. The **age,** gender and **marital status** used in the rating of the automobile shall be determined as follows:

1. If there are no **assigned drivers** under the age of 25, the **age,** gender and **marital status** shall be that of the **principal driver**.

2. If there is at least one **assigned driver** under the age of 25, then the **age,** gender and **marital status** used to rate the policy will be that of the **assigned driver** under the age of 25 which produces the highest factor as determined below. Use the bodily injury and property damage liability coverages factors.

C. **Policy Term**

This adjustment shall be treated as a limits adjustment for purposes of determining the premium.

F. **Automatic Coverage**

1. At the request of the insured, an automatic coverage endorsement may be issued if all owned, rented or leased vehicles are insured by this Company. If all vehicles are not insured by this Company, it may be made applicable if all vehicles of a given class are insured by this Company.

b. If the automatic coverage endorsement is not issued, the automatic coverage provision of the policy applies.

2. The insured shall maintain for each location a record of vehicles showing:

   a. A description of each vehicle purchased, the date of purchase, the cost and other data necessary for the rating thereof.

   b. A description of each vehicle disposed of and date of disposition.

   This record shall be available to this Company upon request.

3. Proper notice to this Company is required to add coverages not provided for by the automatic coverage endorsement.

G. **Deposit Premium**

A deposit premium applies if the policy contains the automatic coverage endorsement (see Section F). The premium calculated for the upcoming policy period is the Deposit Premium. Any changes to the covered vehicles under the terms of the Automatic Coverage Endorsement may impact the final premium for the policy term and shall be subject to the audit provisions in Section H.

H. **Audit**

The Company shall have the right to audit the insured's records, at any time during the policy period and within three years after the termination of the policy, with respect to the premium basis or the subject matter of the policy.

851. EXPERIENCE RATING PLAN

The experience rating provisions of this rule apply to all fleets as defined in Rule 801 - Fleet Rating Plan.

A. This plan provides for the modification of the total policy premium by the application of a premium modification factor.

B. The premium modification factor is determined from experience incurred by the fleet during the past five years ending with the initial effective date of the policy or the three months preceding the renewal of the policy. If five years of experience is not available, such experience as is available shall be used subject to a minimum experience period of one year ending as specified above. If less than one year of experience is available, the premium modification factor shall be 1.00 for the upcoming policy term.

   If the fleet has been insured with a company from which experience is not obtainable, experience may be used that is submitted to the Company in the form of a statement signed by the insured. Experience in such form shall be given credence in accordance with its apparent credibility.

C. The premium modification factor shall be determined and applied as follows:

   1. Determine the number of car years in the experience period represented by the self-propelled vehicles of the fleet.

      Note: A single self-propelled vehicle develops five car years of experience for a five year experience period.

   2. Determine the total fleet incurred losses (paid losses plus reserves on pending claims) for the experience period after:

      a. Multiplying individual coverage incurred losses by the indicated factor below to provide for the inclusion of allocated claim adjustment expense in the loss amount, and

Allocated Adjustment Expense Factors	
Bodily Injury Liability	1.10
Underinsured Motor Vehicle - Coverages U and U1	1.06
Personal Injury Protection	1.03
Medical Payments	1.01
All Other Coverages	1.00

      b. Limiting the amount of loss resulting from any single accident (after providing for allocated claim adjustment expense in the amount) to the "maximum single loss" amount specified in the table below:

200-299	22%
300-466	19%
Over 466	17%
*Percent of adjusted written premium for the experience period.	

3. Determine the total fleet premium collected by the Company for the experience period adjusted to eliminate the effect of any fleet rating modification. If the fleet was insured with another company during any part of the experience period, use the applicable premiums charged by that company. To the extent the applicable premium information for any policy periods is not available from the other company, do not use those policy periods for experience rating.

4. Develop an Actual Limited Loss Ratio by dividing the results of step 2 by the results of step 3.

5. Select the premium modification factor from the table below which corresponds to the developed Actual Limited Loss Ratio from step 4 and the number of car years in the experience period from step 1.

Increase the GRG and DRG 35 factor by the percentage shown in the table below for each GRG or DRG over 35. For example, the GRG factor for a GRG 45 vehicle is computed as 10 (the difference between 45 and 35) multiplied by the percentage shown in the table below. Add one and multiply by the GRG 35 factor, rounding to the nearest thousandths.

Note:

Increase the GRG and DRG 45 factor by the percentage shown in the table below for each GRG or DRG over 45. For example, the GRG factor for a GRG 55 vehicle is computed as 10 (the difference between 55 and 45) multiplied by the percentage shown in the table below. Add one and multiply by the GRG 45 factor, rounding to the nearest thousandths.
