Filing Description:

With this filing, Allstate is proposing structural and factor revisions to Allstate North American Insurance Company (ANAIC) Private Passenger Automobile program in the state of Virginia.

Allstate is introducing Underwriting Tier Factors and Vehicle Driving Factors that will be used to determine a Vehicle's Driving Factor for a Qualifying Vehicle. Additionally, Allstate is removing Welcome Factor from the rating program. Income Loss Benefits and Replacement Protection Factors have been revised additionally.

Allstate has revised various Rules for Months of Continuous Prior Insurance, Suspension of Coverages, Multiple Policy Discount, Telematics Participation Level, Mobile Driving Factor, Deductible by Base Price Factors, Miscellaneous Coverages and Fixed Expense Segmentation. A new rule has been added for Vehicle Driving Factor. Allstate has removed the rule for Welcome Factor.

An overall rate level change of 0.0% has been achieved through the revision of the Rate Adjustment Factors. Further information regarding these changes can be found in the enclosed attachments.

This change will apply to new business written on or after 10/14/2024 and for renewals effective on or after 10/14/2024.

*The confidential documentation for this filing is contained in ALSE-134077811.

Comment: The following amendments will be required of the company in a filing received on or before the end of the year.

*The manual will need amendment where 'violations' are mentioned, the term be replaced with 'convictions.' The company may only rate for convictions pursuant to §38.2-1904.

*Rule 11 must be amended to outline the rating tier application is no longer applicable after 36 months, despite what is noted in subsection B.

*Rule 13 will require amendment to charge the loss by a permissive driver to the vehicle involved in the loss only. If the permissive driver is an principal operator under a separate policy, the accident may not be accounted for in rating.

For any drivers added to the policy, the experience period of 36 months is applicable and may only account for losses which an insured was wholly or partially at fault for.

*Rule 15, D. requires amendment to detail the surcharge applies only to the vehicle the convicted driver is assigned too. It would not be acceptable to rate all vehicles for convictions which they were not charged of. As the company has detailed the rate order of calculation is applicable at the vehicle level. The surcharge for convictions may only follow the specific vehicle applicable.

*The Bad Debt Segmentation rule 51 requires amendment after being insured with the company for 36 months to either update BI limits and the years with carrier to the current status with the company or these factors must be moved to 1.00. The same amendment is required in Rule 52.

*For all instances where prior insurance is used, the company may certainly include the insured's tenure to reflect 3 years when the insured has reached their 36 month renewal with the company so their rate remains consistent. The Bureau's main concern with the use of prior insurance in rating is when insureds with limited prior insurance history are negatively impacted indefinitely but have attained ongoing tenure with the company.

Dear Deborah Larsen,

Introduction:

The Bureau has reopened the filing to address the model year adjustment the company applies based on other filing reviews received by the Bureau.

Objection 1

- Manual Pages, Rule and Rate Pages are Varied (Rate)

Comments: If the year of a vehicle is indicative of loss cost, then to blanket a range of vehicle years with a flat percentage is not acceptable or actuarially justified. The company must amend the factors in RP-24A to reflect the model year factor for a given year. It is not acceptable for the company to increase rates for a 1996 and prior by flat percentages for comprehensive and collision coverage.

The affiliated rule will also require amendment. The Bureau understands the rating has previously been filed, but amendment is required. The company may use its rates as written for 10/14 but must amend the filing to include factors for all year models which the company may write.

Conclusion:

Sincerely,
Jessica Baggarley

Dear Deborah Larsen,

Introduction:

Thank you for the company's time and objection responses submitted on 06/18/2024. Please review the following which requires the company's attention.

Objection 1

- Manual Pages, Rule and Rate Pages are Varied (Rate)

Comments: The company has not provided the requested information for the vehicle history score calculation. The filing must be amended to include each factor which is utilized to calculate a score and how the score aligns with a given VHS Group. The company must provide all rating elements which allow the Bureau to manually calculate the score.

If the company has previously filed all factors, please provide the SERFF filing reference.

Objection 2

- Manual Pages, Rule and Rate Pages are Varied (Rate)

Comments: Provide a rating example at new business using A through G as outlined in Rule 52.

Provide another rating example which removes A. from rating when the insured has been with the company at 36 months.

Objection 3

- Manual Pages, Rule and Rate Pages are Varied (Rate)

Comments: The company applies a factor of 1.250 in MONTHS OF CONTINUOUS PRIOR INSURANCE FACTOR when the amount is 'no need.'

Why does the company adversely rate against an insured for not having prior insurance when they did not need to have prior insurance.

Objection 4

Comments: Please include the full rate order of calculation in one document. Each step should outline if the rating is specific at the vehicle or policy level.

Conclusion:

Sincerely,
Jessica Baggarley

Respond By Date	06/19/2024

Dear Deborah Larsen,

Introduction:

Thank you for the company's time and submission received on 04/22/2024. Please review the following which requires the company's attention. If the company identifies objections which may overlap with previously filed material in other programs, please note amendment will be required of those programs as well.

Objection 1

- Manual Pages, Rule and Rate Pages are Varied (Rate)

Comments: 1) Amendment is required in Section D- Policy Related, 2. The company may only apply this factor for 36 months and then the discount must be removed from rating. The Bureau does not permit lifetime values and the insured will have an established history with the company after 36 months insured.

Amend the rule to clarify the length of time the rating is applicable for.

Rule 11 must also be amended to reflect the use of the rating tier is removed after 36 mos. The company may not continue to use this rating element any longer.

2) Pursuant to §38.2-2205.1, there is no requirement for the suspension action required of the company be conditional upon the insured carrying comprehensive and collision coverage on a leased vehicle. It is understood the company may only write leased vehicles with this coverage as part of the company's underwriting guidelines, but the company may not require the same in the rule. Amend F.1. accordingly.

3) If an insured does not agree to mobile driving participation, what factor is used in rating? How does the company make the insured aware their data is being used?

The company may not gather data prior to the new business date and the insured has consented to their data being used. Please confirm if the company is gathering data prior to the insured's new business effective date.

The same clarification is required of the factor outlined in Rule 31.

Clarify additionally the difference between Rule 31 and Rule 32, how are the factors and application different?

Provide a list of all sources of information the company leverages to acquire this data.

4) Amend Rule 35 to clarify which data source is utilized to determine the base price.

5) Please clarify, in Rule 38 if the mileage is not able to be verified, does the company connect with the insured first to gain the

mileage verification or does the company proceed with rating the vehicle as unverified?

The Bureau would not permit a difference rating between verified and unverified. Two insureds which present the same risk must be rated the same pursuant to §38.2-1904. How the company secures this information is the company's business decision but one insured may not be rated more favorably because of this.

6) The Bureau understands Rule 46 details the factor does not apply in Virginia but it must be removed from the manual and the table of contents. Only rules and rates which are applicable may be included pursuant to §38.2-1906.

7) Rules 51 and 52 require amendment to account for prior bodily injury and years with prior carrier being removed after the insured has been with the company for 36 months.

8) The manual requires amendment to explain the rate adjustment factor. The company must explain what this factor is, why it is used and why it is not reflected in the base rates directly.

9) The company previously filed a rate stabilization certification. Please clarify, does the company currently have a rates stabilization plan in place?

Objection 2

Comments: Please note the following amendments are required of the company. These amendments may be submitted in a future filing but must be received before the end of the calendar year.

1) The company details premiums will be returned pro-rata in the event of cancellation. The company may certainly amend the cancellation provision for insured initiated cancellations but an endorsement is required which amends only this section of PP 01 99 01 22 to reflect return premium will not be short rated.

2) Rule 10 requires amendment to clarify when the company assigns 'No Insurance Score Policy Group will be assigned based on the age of the named insured at the time of the credit report request.'

3) Rule 12 requires amendment. The company may not utilize a 60-month experience period. Pursuant to §38.2-1904.D. The period of review is 36 months and must begin within 12 months after the accident or conviction.

The company may not charge for not-at-fault losses. The rule must state the same in 3. If the company wishes to provide coverage back as noted for collision losses where a % of fault is determined that is acceptable. The company may never include comprehensive losses occurring after new business in rating. The rule must reflect the same regardless of the outline provided in 4.

4) Rule 13, 2.b. requires amendment to detail the charge to the named insured will not apply where the operator causing the accident is a principal operator insured another a separate policy.

5) If the company is providing the insured the option to select an accident waiver which is applicable to coverage and a premium is

charged for the same, the company must provide an endorsement to the insured detailing the coverage being provided pursuant to §38.2-305 and §38.2-317. A filing is required to include an endorsement to support this feature.

6) Any endorsements which this program may have utilized 'me too' from another Allstate filing must be reflected on the forms list. The forms list must include the endorsement number and the filing where the form was approved by the Bureau.

7) Rule 39 requires amendment to include all factors of the score which are utilized in final rating.

Related Objection 1

Applies To:

- Manual Pages, Rule and Rate Pages are Varied (Rate)

Comments: If the year of a vehicle is indicative of loss cost, then to blanket a range of vehicle years with a flat percentage is not acceptable or actuarially justified. The company must amend the factors in RP-24A to reflect the model year factor for a given year. It is not acceptable for the company to increase rates for a 1996 and prior by flat percentages for comprehensive and collision coverage.

The affiliated rule will also require amendment. The Bureau understands the rating has previously been filed, but amendment is required. The company may use its rates as written for 10/14 but must amend the filing to include factors for all year models which the company may write.

Related Objection 1

Applies To:

- Manual Pages, Rule and Rate Pages are Varied (Rate)

Comments: The company has not provided the requested information for the vehicle history score calculation. The filing must be amended to include each factor which is utilized to calculate a score and how the score aligns with a given VHS Group. The company must provide all rating elements which allow the Bureau to manually calculate the score.

If the company has previously filed all factors, please provide the SERFF filing reference.

Comments: 1) Amendment is required in Section D- Policy Related, 2. The company may only apply this factor for 36 months and then the discount must be removed from rating. The Bureau does not permit lifetime values and the insured will have an established history with the company after 36 months insured.

Amend the rule to clarify the length of time the rating is applicable for.

Rule 11 must also be amended to reflect the use of the rating tier is removed after 36 mos. The company may not continue to use this rating element any longer.

2) Pursuant to §38.2-2205.1, there is no requirement for the suspension action required of the company be conditional upon the insured carrying comprehensive and collision coverage on a leased vehicle. It is understood the company may only write leased vehicles with this coverage as part of the company's underwriting guidelines, but the company may not require the same in the rule. Amend F.1. accordingly.

3) If an insured does not agree to mobile driving participation, what factor is used in rating? How does the company make the insured aware their data is being used?

The company may not gather data prior to the new business date and the insured has consented to their data being used. Please confirm if the company is gathering data prior to the insured's new business effective date.

The same clarification is required of the factor outlined in Rule 31.

Clarify additionally the difference between Rule 31 and Rule 32, how are the factors and application different?

Provide a list of all sources of information the company leverages to acquire this data.

4) Amend Rule 35 to clarify which data source is utilized to determine the base price.

5) Please clarify, in Rule 38 if the mileage is not able to be verified, does the company connect with the insured first to gain the mileage verification or does the company proceed with rating the vehicle as unverified?

The Bureau would not permit a difference rating between verified and unverified. Two insureds which present the same risk must be rated the same pursuant to §38.2-1904. How the company secures this information is the company's business decision but one insured may not be rated more favorably because of this.

6) The Bureau understands Rule 46 details the factor does not apply in Virginia but it must be removed from the manual and the table of contents. Only rules and rates which

are applicable may be included pursuant to §38.2-1906.

7) Rules 51 and 52 require amendment to account for prior bodily injury and years with prior carrier being removed after the insured has been with the company for 36 months.

8) The manual requires amendment to explain the rate adjustment factor. The company must explain what this factor is, why it is used and why it is not reflected in the base rates directly.

9) The company previously filed a rate stabilization certification. Please clarify, does the company currently have a rates stabilization plan in place?

Comments: Please note the following amendments are required of the company. These amendments may be submitted in a future filing but must be received before the end of the calendar year.

- 1) The company details premiums will be returned pro-rata in the event of cancellation. The company may certainly amend the cancellation provision for insured initiated cancellations but an endorsement is required which amends only this section of PP 01 99 01 22 to reflect return premium will not be short rated.
- 2) Rule 10 requires amendment to clarify when the company assigns 'No Insurance Score Policy Group will be assigned based on the age of the named insured at the time of the credit report request.'
- 3) Rule 12 requires amendment. The company may not utilize a 60-month experience period. Pursuant to §38.2-1904.D. The period of review is 36 months and must begin within 12 months after the accident or conviction.

The company may not charge for not-at-fault losses. The rule must state the same in 3. If the company wishes to provide coverage back as noted for collision losses where a % of fault is determined that is acceptable. The company may never include comprehensive losses occurring after new business in rating. The rule must reflect the same regardless of the outline provided in 4.
- 4) Rule 13, 2.b. requires amendment to detail the charge to the named insured will not apply where the operator causing the accident is a principal operator insured another a separate policy.
- 5) If the company is providing the insured the option to select an accident waiver which is applicable to coverage and a premium is charged for the same, the company must provide an endorsement to the insured detailing the coverage being provided pursuant to §38.2-305 and §38.2-317. A filing is required to include an endorsement to support this feature.
- 6) Any endorsements which this program may have utilized 'me too' from another Allstate filing must be reflected on the forms list. The forms list must include the endorsement number and the filing where the form was approved by the Bureau.

Dear Deborah,

The Bureau will allow the reopening of this filing but please note, the Bureau will allow this option sparingly to the Group in the future. The Allstate Group **must** find ways internally to align their filings in a more efficient manner.

The amended manual must be added to the filing within the next 5 business days or the filing will be closed again and a new SERFF filing will be required.
