Filing Description:

Based on an objection, Allstate has amended this filing to update the table in Rule 79 – Table Assignment Number Group Rating.

With this filing, Allstate is proposing revisions to the Table Assignment Number Group Rating for the Allstate Property and Casualty Insurance Company (APC) Private Passenger Auto (PPA) program in the Commonwealth of Virginia. These revisions replace the Table Assignment Number Group Rating from SERFF Tr Number: ALSE-133858352 effective October 30, 2023.

The rate level impact of these changes is targeted to be 0.0%. Further information regarding these changes can be found in the enclosed attachments.

These changes will apply to new business written on or after 6/17/2024 and for renewals effective on or after 7/18/2024.

Dear Deborah Larsen,

Introduction:

Thank you for the company's time and objection responses submitted on 07/17/2024. Please review the following information that is in need of the company's attention further.

Objection 1

- Rule 79 - Table Assignment Number Group Rating, 79-1 (Rate)

Comments: Thank you for the company's time and objection response.

Please confirm, are all new business policies assigned DRW at new business?

If the above is not true, please then detail exactly in the rule how the initial assignment occurs.

Additionally, please clarify what rating factor is being captured or accounted for through the TAN assignment. Why is this factor necessary and what is its purpose?

Conclusion:

Sincerely,
Jessica Baggarley

Respond By Date	07/25/2024

Dear Deborah Larsen,

Introduction:

Thank you for the company's time and objection responses submitted on 05/31/2024. Please review the following which requires the company's attention.

Objection 1

- Filing Memo Parts 1 and 2 (Supporting Document)

Comments: 1) Rule 79 requires amendment to include the exact factors which will be assigned to the TAN Group Assignment at each renewal interval.

If the assignment is doing in fact what the company has noted it does, the factor assignment should be the same at each renewal regardless of the Group Assignment.

The company may not charge different factors based on the tan group assignment as it would appear then the number nor factor are in fact randomly assigned.

2) The company also did not clarify why the Rating information statement details: Additional Rating Factors details: "Table Assignment Number Group Rating Factor This rating factor will be determined based on your Table Assignment Number Group, which is determined after considering multiple factors including your expected losses and expenses.

This rating factor will apply to Liability, Medical Expense Benefits, Income Loss Benefits, Collision, Comprehensive, and Uninsured Motorists coverages."

Per the company's rating statement TAN is used to rate expected losses.

Regardless of any conversation the company previously had with the Bureau, the Rating Information Statement directly conflicts with the conversation.

Conclusion:

Sincerely,
Jessica Baggarley

Dear Deborah Larsen,

Introduction:

Thank you for the company's time and submission received on 05/22/2024. Please review the following which requires the company's attention.

Objection 1

- Filing Memo Parts 1 and 2 (Supporting Document)

Comments: The Bureau wishes to revisit the use of the table assignment number with the company. It was detailed previously with the Bureau this number was a sort of unique identifier specific to an insured. The company noted "The TAN is a randomly-generated, unchanging, unique policy identifier. Like micro-segment, the TAN itself does not consider rating criteria; it is not used as a loss cost factor."

Additional Rating Factors details: Table Assignment Number Group Rating Factor This rating factor will be determined based on your Table Assignment Number Group, which is determined after considering multiple factors including your expected losses and expenses. This rating factor will apply to Liability, Medical Expense Benefits, Income Loss Benefits, Collision, Comprehensive, and Uninsured Motorists coverages.

Per the company's rating statement TAN is used to rate expected losses.

The filing requires amendment to include all variables used to formulate the final TAN assignment. If there are sub-categories of the variable, they must be defined. The factor assignments applicable to each variable must be included with the filing as well as the formula used to calculate the final assignment.

Please note, the Bureau no longer permits the use of 'spreading' expenses over the expected lifetime of a policy. If the prediction is too long the rate is inadequate and if the prediction is too short the rate is excessive which violates §38.2-1904.

Please amend the companys filing accordingly.

Conclusion:

Please feel free to reach out to myself if there is anything I can assist with: jessica.baggarley@scc.virginia.gov.

Sincerely,

Jessica Baggarley
