Objection Letter

Objection Letter Status	Info requested from Company
Objection Letter Date	10/30/2025
Submitted Date	10/30/2025
Respond By Date	11/20/2025

Dear Deborah Larsen,

Introduction:

Thank you for the company's time and objection responses received on 10/09/2025. Please review the following information which requires the company's attention.

Objection 1

- Entire Rules Manual, Pages 1-60 (Rate)

Comments: Rule 23 indicates the Vendor Confidence Score is supplied by Verisk. This is not a model filed for use in VA. When an RSO model has not been filed for member companies to leverage, the model must be filed in its entirety by Allstate with the Bureau. This model may not be filed trade secret as it is not the intellectual property of the company.

The ability to calculate the score is based on information which is compiled by Verisk. Any score used in rating which is reliant upon a model to return the score, must be filed.

The company may either remove this element from rating or connect with Verisk to obtain a version of the model that may be filed publicly within this filing.

Objection 2

- ISM 8 (Supporting Document)

Comments: Thank you for the company's additional clarification regarding the ISM 8 Model. Please provide a comprehensive outline of the types of homeowners losses which were used in the validation of the model.

Conclusion:

Sincerely,
Jessica Baggarley

Objection Letter

Objection Letter Status	Info requested from Company
Objection Letter Date	09/29/2025
Submitted Date	09/29/2025
Respond By Date	10/17/2025

Dear Deborah Larsen,

Introduction:

Thank you for the company's time and objection responses submitted on 08/28/2025. Please review the following which requires the company's attention.

Objection 1

- Entire Rules Manual, Pages 1-60 (Rate)

Comments: Based on the amendments made to rule 9.B.3.b. as requested and for additional understanding, does the company have a modified replacement cost estimator which is a separate estimation tool from the replacement cost estimator? How is the company able to estimate what they anticipate would not be replaced with material of like, kind and quality?

Objection 2

- Entire Rules Manual, Pages 1-60 (Rate)

Comments: Rule 23 indicates the Vendor Confidence Score is supplied by Verisk. This is not a model filed for use in VA. When an RSO model has not been filed for member companies to leverage, the model must be filed in its entirety by Allstate with the Bureau. This model may not be filed trade secret as it is not the intellectual property of the company.

Objection 3

- ISM 8 (Supporting Document)

Comments: The Bureau apologizes the following objection was omitted from the previous letter. The Bureau also acknowledges this model may be in use in other programs of the company. Please clarify the volume of homeowners data that was used when building the model. The Bureau would not find it acceptable to utilize a model built entirely using auto data to understand the risk of loss in a homeowners product.

Please also provide the volume of data used in modeling by state. Please also clarify when the model was last re-run.

Objection 4

- Entire Rate Manual Parts 1-9, Pages 1-300; 1-600; 1-500; 1-500; 1-700; 1-913; 1-850; 1-855; 1-1629 (Rate)

Comments: If the company wishes to utilize a separate peril for wildfire, the company must be able to actuarially support rating for the peril utilizing only VA data. There is no differentiation between fire and wildfire in the minimum standards. The company must be able to support the factor selections and provide the catastrophe modeling data or the by-peril requires removal from the company's VA program.

Conclusion:

Sincerely,
Jessica Baggarley

Objection Letter

Objection Letter Status	Info requested from Company
Objection Letter Date	07/24/2025
Submitted Date	07/24/2025
Respond By Date	09/04/2025

Dear Deborah Larsen,

Introduction:

Thank you for the company's time and submission received on 06/23/2023. Please review the following which requires the company's attention.

Objection 1

- Entire Rate Manual Parts 1-9, Pages 1-700; 1-700; 1-700; 1-700; 1-700; 1-700; 1-700; 1-700; 1-1256 (Rate)

Comments: Objections pertain to Part 1:

1) The peril of wildfire is not typically utilized in VA due to the low instances of wildfire. Please provide the VA data the company utilized in rate formation to derive the factors. The Bureau would not find it acceptable to utilize countrywide data solely in this instance to rate for policies in VA which will otherwise likely not be exposed to this peril. The company's supports should include all sources used and the data analyzed from these sources.

2) Please provide the same data as requested in 1) for NCOR Hurricane, Severe Thunderstorm and Winter Storm. For the last 5 years, please provide the specific observed weather instances in VA which would have fallen within the these premium components.

3) As referenced in the rule objections, the company may only apply a special property deductible for the following causes of loss (i) wind, (ii) hail, or (iii) theft. Otherwise there is one property deductible which is applicable and may be utilized by the company. Amend the rate order of calculation (ROC) to reflect how the premium component deductible factors are combined to provide for one deductible.

If the company will still utilize a special deductible for wind, hail or theft, the ROC must detail the same.

Additionally, the company's rate pages note the minimum required deductible is \$1,000. It would appear then that the columns for \$250 and \$500 may be removed from the rate tables.

For the required offers of coverage for water back up and ordinance or law, the maximum deductible limit of 10% is also applicable. It appears these rate tables may also be amended to remove the deductible options which are less than \$1000 per the company's note.

4) Please provide what data elements went into the formation of the factors for Age of Home and then those for Year Built. Please include the actual data sources the company utilized.

Please also outline what insurance risk is understood by Age of Home which is separate from Year Built.

State: Virginia **Filing Company:** Allstate North American Insurance Company
TOI/Sub-TOI: 04.0 Homeowners/04.0003 Owner Occupied Homeowners
Product Name: ANAIC HO
Project Name/Number: Introduction of ANAIC Homeowners (ASC)/RITM06690749

5) Parcel Perimeter and Area Factors require amendment to remove the row for no information available.

****All instances in the manual where no data/unknown are referenced, other than Policy Group, must be removed from the rate tables.****

Objection 2

- Entire Rules Manual, Pages 1-60 (Rate)

Comments: 1) Rule 4 requires amendment to remove the first sentence. The policy is an annual policy and will bill for the same. There will in fact be a start and stop date to the policy pending premium payment for the next renewal cycle being satisfied. The Bureau understands possibly what the company intends with their verbiage but clarification is required within the rule.

2) Rule 9 requires amendment to define how B.3. Functional Replacement Protection is calculated. The rule manual also requires amendment per the minimum standards to include functional replacement cost loss settlement does not apply to property that qualifies for an amount of insurance equal to 80% or more of the full replacement cost of the dwelling.

3) Please amend Rule 10 to clarify how a location zone is assigned in the event there is missing information returned from the company's vendor or the property is being newly built.

4) Per the minimum standards, the company may apply a special property deductible for the following causes of loss (i) wind, (ii) hail, or (iii) theft. Otherwise there is only one set deductible which is applicable to the base policy which the company may utilize. Amend Rule 12 to outline the same.

The rule must outline which deductibles tables correlate with the wind/hail deductible. It appears these may be the rate tables occurring when the company begins to define Deductible Zones in Part 8.

5) Rule 23 requires amendment to include the formula for how the roof assessment index is calculated and an example.

6) Rule 26 requires amendment to remove 1 and 4. If the company feels the roof condition and tree overhang are measures of risk, the company must then go secure the photos of the roof and property to score accordingly.

****Please note, there is significant support required to utilize the roof condition score model. The company should anticipate a prolonged review time of this filing and the trade secret filing. It is possible the effective of 10/14/2025 will require delay.****

7) Rule 27 requires amendment to remove 1.

****For all roof factors- the no data rows included must all be removed. This is all information the company may obtain by physically inspecting a property if need be. The Bureau does not find unknown values to be acceptable for use in rating. ****

State: Virginia **Filing Company:** Allstate North American Insurance Company
TOI/Sub-TOI: 04.0 Homeowners/04.0003 Owner Occupied Homeowners
Product Name: ANAIC HO
Project Name/Number: Introduction of ANAIC Homeowners (ASC)/RITM06690749

8) Rule 28 requires amendment to remove the No Parcel Perimeter assignment. The company may send a field adjuster or agent to collect this information. The same amendment is required in Rules 29 and 30.

9) Rule 33.B. requires amendment to further define "secondary only."

10) Pursuant to §38.2-2126.B., please amend Rule 35 in B. to replace "annually" with "policy term." The insured is permitted by the Code to request the re-run of their credit once per policy term.

11) The roof deterioration scoring model must be filed just as the roof condition score. Rule 51, 1. must be removed.

12) Please amend Rule 52 to define the facet intersection. 1 must be removed from the rule. 1 must also be removed from Rule 53.

13) Please amend the manual to include rules for all premium bearing endorsements. Please verify the company's rate tables and ROC also include the appropriate rating factors.

Objection 3

Comments: Please clarify where in the company's filing the roof condition model has been filed.

If the company has not filed the roof condition model currently, the filing must be amended to include the entire model support information, including all development information, data dictionary, and algorithm.

If the company intends to request confidentiality be maintained for this information, a separate filing must be submitted which includes the information detailed above and the requirements of AL 2010-07, attached, be completed.

This information is also applicable as it relates to the roof deterioration scoring model.

Objection 4

- Entire Rate Manual Parts 1-9, Pages 1-700; 1-700; 1-700; 1-700; 1-700; 1-700; 1-700; 1-700; 1-1256 (Rate)

- Entire Rules Manual, Pages 1-60 (Rate)

Comments: In Part 6, the High Risk Layer Conversion Factors begin. Please amend the rule manual to include a rule for these rating tables.

The Bureau requests additional support to understand the insurance risk being rated for in these tables as the company understands it to be. Provide as much supporting documentation as the company is able to expedite the review of this factor to avoid additional follow up questions.

Please provide a map of Virginia displaying the high risk areas, by premium component, or some other mapping visual which supports the factor.

Additionally, please provide all data utilized to develop these factors.

Response Letter

Response Letter Status	Submitted to State
Response Letter Date	08/28/2025
Submitted Date	08/28/2025

Dear Jessica Baggarley,
Introduction:
Good afternoon, Jessica.

Attached please find our Objection Response and Attachments I and II, along with the updated Rate Manual and Rules Manual.

Please contact me if you have questions or need additional information.

Response 1
Comments:
Please see Objection Response.

Related Objection 1
Applies To:
- Entire Rate Manual Parts 1-9, Pages 1-700; 1-700; 1-700; 1-700; 1-700; 1-700; 1-700; 1-700; 1-1256 (Rate)

State:	Virginia	Filing Company:	Allstate North American Insurance Company
TOI/Sub-TOI:	04.0 Homeowners/04.0003 Owner Occupied Homeowners		
Product Name:	ANAIC HO		
Project Name/Number:	Introduction of ANAIC Homeowners (ASC)/RITM06690749		

Comments: Objections pertain to Part 1:

- 1) The peril of wildfire is not typically utilized in VA due to the low instances of wildfire. Please provide the VA data the company utilized in rate formation to derive the factors. The Bureau would not find it acceptable to utilize countrywide data solely in this instance to rate for policies in VA which will otherwise likely not be exposed to this peril. The company's supports should include all sources used and the data analyzed from these sources.
- 2) Please provide the same data as requested in 1) for NCOR Hurricane, Severe Thunderstorm and Winter Storm. For the last 5 years, please provide the specific observed weather instances in VA which would have fallen within the these premium components.
- 3) As referenced in the rule objections, the company may only apply a special property deductible for the following causes of loss (i) wind, (ii) hail, or (iii) theft. Otherwise there is one property deductible which is applicable and may be utilized by the company. Amend the rate order of calculation (ROC) to reflect how the premium component deductible factors are combined to provide for one deductible.

If the company will still utilize a special deductible for wind, hail or theft, the ROC must detail the same.

Additionally, the company's rate pages note the minimum required deductible is \$1,000. It would appear then that the columns for \$250 and \$500 may be removed from the rate tables.

For the required offers of coverage for water back up and ordinance or law, the maximum deductible limit of 10% is also applicable. It appears these rate tables may also be amended to remove the deductible options which are less than \$1000 per the company's note.

- 4) Please provide what data elements went into the formation of the factors for Age of Home and then those for Year Built. Please include the actual data sources the company utilized.

Please also outline what insurance risk is understood by Age of Home which is separate from Year Built.

- 5) Parcel Perimeter and Area Factors require amendment to remove the row for no information available.

****All instances in the manual where no data/unknown are referenced, other than Policy Group, must be removed from the rate tables.****

Response 2

Comments:

Please see Objection Response.

Related Objection 2

Applies To:

- Entire Rules Manual, Pages 1-60 (Rate)

State:	Virginia	Filing Company:	Allstate North American Insurance Company
TOI/Sub-TOI:	04.0 Homeowners/04.0003 Owner Occupied Homeowners		
Product Name:	ANAIC HO		
Project Name/Number:	Introduction of ANAIC Homeowners (ASC)/RITM06690749		

Comments: 1) Rule 4 requires amendment to remove the first sentence. The policy is an annual policy and will bill for the same. There will in fact be a start and stop date to the policy pending premium payment for the next renewal cycle being satisfied. The Bureau understands possibly what the company intends with their verbiage but clarification is required within the rule.

2) Rule 9 requires amendment to define how B.3. Functional Replacement Protection is calculated. The rule manual also requires amendment per the minimum standards to include functional replacement cost loss settlement does not apply to property that qualifies for an amount of insurance equal to 80% or more of the full replacement cost of the dwelling.

3) Please amend Rule 10 to clarify how a location zone is assigned in the event there is missing information returned from the company's vendor or the property is being newly built.

4) Per the minimum standards, the company may apply a special property deductible for the following causes of loss (i) wind, (ii) hail, or (iii) theft. Otherwise there is only one set deductible which is applicable to the base policy which the company may utilize. Amend Rule 12 to outline the same.

The rule must outline which deductibles tables correlate with the wind/hail deductible. It appears these may be the rate tables occurring when the company begins to define Deductible Zones in Part 8.

5) Rule 23 requires amendment to include the formula for how the roof assessment index is calculated and an example.

6) Rule 26 requires amendment to remove 1 and 4. If the company feels the roof condition and tree overhang are measures of risk, the company must then go secure the photos of the roof and property to score accordingly.

****Please note, there is significant support required to utilize the roof condition score model. The company should anticipate a prolonged review time of this filing and the trade secret filing. It is possible the effective of 10/14/2025 will require delay.****

7) Rule 27 requires amendment to remove 1.

****For all roof factors- the no data rows included must all be removed. This is all information the company may obtain by physically inspecting a property if need be. The Bureau does not find unknown values to be acceptable for use in rating. ****

State:	Virginia	Filing Company:	Allstate North American Insurance Company

Product Name:	ANAIC HO		
Project Name/Number:	Introduction of ANAIC Homeowners (ASC)/RITM06690749		

8) Rule 28 requires amendment to remove the No Parcel Perimeter assignment. The company may send a field adjuster or agent to collect this information. The same amendment is required in Rules 29 and 30.

9) Rule 33.B. requires amendment to further define "secondary only."

10) Pursuant to §38.2-2126.B., please amend Rule 35 in B. to replace "annually" with "policy term." The insured is permitted by the Code to request the re-run of their credit once per policy term.

11) The roof deterioration scoring model must be filed just as the roof condition score. Rule 51, 1. must be removed.

12) Please amend Rule 52 to define the facet intersection. 1 must be removed from the rule. 1 must also be removed from Rule 53.

13) Please amend the manual to include rules for all premium bearing endorsements. Please verify the company's rate tables and ROC also include the appropriate rating factors.

Response 3

Comments:

Please see Objection Response.

Related Objection 3

Comments: Please clarify where in the company's filing the roof condition model has been filed.

If the company has not filed the roof condition model currently, the filing must be amended to include the entire model support information, including all development information, data dictionary, and algorithm.

If the company intends to request confidentiality be maintained for this information, a separate filing must be submitted which includes the information detailed above and the requirements of AL 2010-07, attached, be completed.

This information is also applicable as it relates to the roof deterioration scoring model.

Comments: In Part 6, the High Risk Layer Conversion Factors begin. Please amend the rule manual to include a rule for these rating tables.

The Bureau requests additional support to understand the insurance risk being rated for in these tables as the company understands it to be. Provide as much supporting documentation as the company is able to expedite the review of this factor to avoid additional follow up questions.

Please provide a map of Virginia displaying the high risk areas, by premium component, or some other mapping visual which supports the factor.

Additionally, please provide all data utilized to develop these factors.

AL 2010-07

Comments:

AL 2010-07 is attached for the company's reference as needed.

July 1, 2010

Administrative Letter 2010-07

To: All Licensed Insurers and Rate Service Organizations Subject to the Provisions of Chapter 19 of Title 38.2 of the Code of Virginia

Re: Requests for Trade Secret Protection of Rates and/or Supplementary Rate Information Pursuant to House Bill No. 531

Effective July 1, 2010, § 38.2-1907 (Filings Open to Inspection) is amended to allow insurers and rate service organizations (RSO) to request confidentiality of rates and supplementary rate information provided that such information constitutes a trade secret pursuant to § 59.1-336. The Bureau of Insurance (Bureau) has established the following procedural requirements for filers to follow when submitting requests for confidentiality of trade secret information:

- Filings are open to the public pursuant to § 38.2-1907. A filing will be held confidential by the Bureau ONLY if the insurer or RSO has requested trade secret protection and submitted the appropriate documentation.
- The request for trade secret protection must be submitted with the filing. If the Bureau disagrees with the assertion that such documents should be protected as a trade secret, the insurer or RSO will be given the opportunity to further justify its position.
- The request for trade secret protection must contain the following information (see sample form attached):
 - o Information identifying the insurer or RSO making the request (e.g., name of the individual submitting the request, insurer's or RSO's name and NAIC number, mailing address, e-mail address, phone number, and fax number).
 - o A detailed explanation identifying the content of the filing for which confidentiality is requested with sufficient details to demonstrate why the content constitutes a trade secret as defined in § 59.1-336. **Please note that "trade secret" is defined in § 59.1-336 as "...information, including but not limited to, a formula, pattern, compilation, program, device, method, technique, or process that: (1) derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use, and (2) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy."**
 - o A detailed explanation as to how the release of the information would cause economic injury to the insurer or rate service organization.
 - o The names of the states in which trade secret protection has been requested for the filing and the outcome of each request.

- In order to protect the confidentiality of the trade secret documents, filings with requests for trade secret protection should contain ONLY the materials to be protected, and the filing should be clearly designated as "confidential." For example, do not file rates in the same filing as a trade secret rule. Please provide a cross-reference for any associated companion filing (e.g., SERFF tracking number, company filing number, etc.). **The Bureau will reject SERFF filings and return paper filings that contain a combination of trade secret and public record materials.**
- If a filing under trade secret protection is challenged by a member of the public, the Bureau will notify the insurer or RSO of the challenge. The documents will remain confidential until the matter is resolved.

Attachment

**Request for Trade Secret Protection
Pursuant to § 38.2-1907 of the Code of Virginia**

Requests for the protection of the content of a filing as a trade secret pursuant to § 38.2-1907 must contain the following information. It is your responsibility to claim trade secret protection where it is needed and to demonstrate that the information constitutes a trade secret as defined in § 59.1-336.

1. Identification of the party requesting trade secret protection:

Name of Insurance Company/RSO: _____
NAIC #: _____
Name of Authorized Representative: _____
Title of Authorized Representative: _____
Address: _____

E-mail address: _____
Telephone: _____
Fax: _____

2. Provide a detailed explanation of the content of the filing for which confidentiality is requested and why it constitutes a trade secret as defined in § 59.1-336 (use additional pages as required): _____

3. Provide an explanation as to how the release of the information would cause economic injury to the insurer or rate service organization (use additional pages as required): _____

4. The names of the states in which trade secret protection has been requested for the filing and the outcome of each request: _____

Signature of authorized representative: _____

Date: _____
