Submitted Date	02/18/2026
Respond By Date	03/04/2026

Dear Deborah Larsen,

Introduction:

Thank you for your time and objection response. However, the following issues will require your attention.

Objection 1

- Manual Pages, I-1; I-2; 22-1; 22-2; 22-3; 22-4 – 22-5; 22-6; 33-1; 33-2; 57-8; 62-1; 66-1; RP-2-1A; RP-MW-1; RP-2-2A; RP-12A – RP-20A; RP-1T – RP-3T; RP-4T; RP-5T – RP-12T; RP-13T – RP-14T; RP-15T – RP-24T (Rate)

Comments: Thank you for the submission of Exhibit B. However, the company must still provide evidence to support the significance of the variable in the model as a whole, rather than demonstrating solely different loss history when considered in isolation. When considering the variable in isolation, the company does not prove valid use of the factor in the rating model, but rather spurious correlation which the company may already rate for in a more appropriate casual factor.

The company may not rate for a variable fixed at new business and not available to all insureds (e.g. book transfers) indefinitely, as it would lose its actuarial soundness after a period and violate § 38.2-1904. If the company wishes to retain the advance quote discount beyond five years, it should provide actuarial support for each renewal beyond that period accordingly.

Alternatively, the company may amend the length the discount is considered in this or a future filing.

If the company has any questions or concerns regarding the objections, it should reach out via SERFF for clarification before submitting the objection response. The objection response should contain the requested corrections.

Objection 2

Comments: Please confirm the company wishes to retain the currently requested effective dates. Once a filing has been closed, the effective dates cannot be modified if they are in the past.

Conclusion:

If the company has any questions or concerns regarding the objections, it should reach out via SERFF for clarification before submitting the objection response. The objection response should contain the requested corrections.

Should you have any questions, please feel free to contact me at flora.worthington@scc.virginia.gov.

Sincerely,

Flora Worthington

Dear Deborah Larsen,

Introduction:

Thank you for your time and objection response. However, the following issues will require your attention.

Objection 1

- Manual Pages, I-1; I-2; 22-1; 22-2; 22-3; 22-4-22-5; 22-6; 33-1; 33-2; 57-8; 62-1; RP-2-1A; RP-MW-1; RP-2-2A; RP-12A-RP-20A; RP-1T-RP-3T- RP-4T; RP-5T-RP-12T; RP-13T-RP-14T-RP-15T-RP-24T (Rate)

Comments: RP-20A:

Thank you for the clarification that tier is equivalent to rating group. However, if this is the case, the 6+ value for tier should equal the factors for tier 1, rather than 1.00. Please amend the rates or clarify accordingly.

Rule 65:

If the company wishes to retain the advance quote discount beyond five years, it should provide actuarial support for each renewal beyond that period accordingly. The data should demonstrate the significance of the variable in the model as a whole, rather than demonstrating solely different loss history when considered in isolation.

Rule 66:

Please provide an updated Pattern Two Table or Rule 66 clarifying that the unverified/all other combinations option will only be used in rating after the insured cannot provide the mileage, and will only be used until the mileage can be provided.

Objection 2

Comments: Please confirm the company wishes to retain the currently requested effective dates. Once a filing is closed, the effective dates cannot be modified if they are in the past.

Conclusion:

Should you have any questions, please feel free to contact me at flora.worthington@scc.virginia.gov.

Dear Deborah Larsen,

Introduction:

Thank you for your submission. The following issues will require your attention.

Objection 1

Comments: Please amend the rate schedule to indicate the overall rate impact of the changes made in this filing for applicable insureds. Please clarify whether the company continues to be open to new business.

Objection 2

Comments: Page 33-1:

Per the company, "Starting on the sixth renewal effective date, each policy will be assigned to Rating Group 1." Please clarify what rule corresponds with Rating Groups and the SERFF number where that material was filed with the Bureau.

RP-20A:

Please provide the Tenured Policy Group factor used for policy terms 1-5 as part of the rate manual and the factor used for Tier after five terms (presumably 1.00). The company's rate order of calculations appear to use both variables, regardless of renewals with the company.

Objection 3

Comments: The following issues relate to previously filed material:

Throughout Rule 22, the company should change the reference of "violations" to "convictions."

Please submit the updated pages for Rule 28. The Bureau has conflicting pages on file for the company.

Please refer to the previously filed material of Rule 65. It is the position of the Bureau that, unless the company can prove otherwise, there is no actuarial basis to extend the Advance Quote discount beyond five years. Amend the discount or provide actuarial proof for each year after five years accordingly.

Please refer to Rule 66 and the associated rates under the Pattern Two table. The company may not rate an insured differently based on how the company acquires data. The company may certainly require an insured submit proof of their claimed mileage, but may not rate two insureds with the same mileage risk differently if they pose the same risk. Please amend the rule and any associated rates accordingly.

Please provide the Territory Definitions RP-1T-24T pages.

Conclusion:

Should you have any questions, please feel free to contact me at flora.worthington@scc.virginia.gov.

Sincerely,

Flora Worthington

Dear Flora Worthington,

Introduction:

Good afternoon, Flora.

Attached please find our Objection Response and supporting Attachment A, along with our amendment documents. Please contact me if you have questions or need additional information.

Response 1

Comments:

Please see Objection Response.

Related Objection 1

Comments: Please amend the rate schedule to indicate the overall rate impact of the changes made in this filing for applicable insureds. Please clarify whether the company continues to be open to new business.

Changed Items:

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

No Supporting Documents changed.

Response 2

Comments: Page 33-1:

Per the company, "Starting on the sixth renewal effective date, each policy will be assigned to Rating Group 1." Please clarify what rule corresponds with Rating Groups and the SERFF number where that material was filed with the Bureau.

RP-20A:

Please provide the Tenured Policy Group factor used for policy terms 1-5 as part of the rate manual and the factor used for Tier after five terms (presumably 1.00). The company's rate order of calculations appear to use both variables, regardless of renewals with the company.

Changed Items:

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

No Supporting Documents changed.

Response 3

Comments:

Please see Objection Response.

Related Objection 3

Comments: The following issues relate to previously filed material:

Throughout Rule 22, the company should change the reference of "violations" to "convictions."

Please submit the updated pages for Rule 28. The Bureau has conflicting pages on file for the company.

Please refer to the previously filed material of Rule 65. It is the position of the Bureau that, unless the company can prove otherwise, there is no actuarial basis to extend the Advance Quote discount beyond five years. Amend the discount or provide actuarial proof for each year after five years accordingly.

Please refer to Rule 66 and the associated rates under the Pattern Two table. The company may not rate an insured differently based on how the company acquires data. The company may certainly require an insured submit proof of their claimed milage, but may not rate two insureds with the same milage risk differently if they pose the same risk. Please amend the rule and any associated rates accordingly.

Please provide the Territory Definitions RP-1T-24T pages.
