Filing Description:

With this filing, Allstate is proposing revisions to the following rating plan for the Allstate Fire and Casualty Insurance Company (AFCIC) Private Passenger Auto (PPA) program in the Commonwealth of Virginia in response to previous communication made in SERFF filing ALSE-134147380: Tier Determination. In addition, Allstate is introducing the following rating plan: Tenured Policy Group.

Further information regarding these changes can be found in the enclosed attachments.

These changes will apply to new business written on or after 1/26/2026 and for renewals effective on or after 2/26/2026.

Dear Deborah Larsen,

Introduction:

Thank you for your time and objection response. However, the following issues will require your attention.

Objection 1

- Objection Response and Attachment B (Supporting Document)

Comments: Thank you for the submission of Exhibit B. However, the company must still provide evidence to support the significance of the variable in the model as a whole, rather than demonstrating solely different loss history when considered in isolation. When considering the variable in isolation, the company does not prove valid use of the factor in the rating model, but rather spurious correlation which the company may already rate for in a more appropriate casual factor.

The company may not rate for a variable fixed at new business and not available to all insureds (e.g. book transfers) indefinitely, as it would lose its actuarial soundness after a period and violate § 38.2-1904. If the company wishes to retain the advance quote discount beyond five years, it should provide actuarial support for each renewal beyond that period accordingly.

Alternatively, the company may amend the length the discount is considered in this or a future filing.

If the company has any questions or concerns regarding the objections, it should reach out via SERFF for clarification before submitting the objection response. The objection response should contain the requested corrections.

Objection 2

Comments: Please confirm the company wishes to retain the currently requested effective dates. The effective dates cannot be modified if they are in the past once a filing is closed.

Conclusion:

Should you have any questions, please feel free to contact me at flora.worthington@scc.virginia.gov.

Sincerely,

Flora Worthington

Dear Deborah Larsen,

Introduction:

Thank you for your time and objection response. However, the following issues will require your attention.

Objection 1

- Manual Pages, I-1; I-3; 12-1; 12-2; 12-3 – 12-4; 47-2; 50-1; 50-2; 51-9; TD-1 – TD-6; TD-7; TD-8 – TD-10; RP-1A; RP-15A - RP-25A (Rate)

Comments: Page RP-25A:

Thank you for the clarification that tier is equivalent to rating group. However, if this is the case, the 6+ value for tier should equal the factors for tier 1, rather than 1.00. Please amend the rates or clarify accordingly.

Objection 2

- Objection Response Support (Supporting Document)

Comments: The following objections relate to Rule 51.

The company's interpretation of AL-2025-01 is incorrect. Accidents may not be rated at both the vehicle and policy level, even if different accidents are considered for each rating method. All accidents, whether at fault or not at fault, must be rated through one rating path.

Please provide a date by which the tiering method will be corrected in a future filing, or resubmit all pages associated with this rule in this filing.

Objection 3

- Manual Pages, I-1; I-3; 12-1; 12-2; 12-3 – 12-4; 47-2; 50-1; 50-2; 51-9; TD-1 – TD-6; TD-7; TD-8 – TD-10; RP-1A; RP-15A - RP-25A (Rate)

- Objection Response Support (Supporting Document)

Comments: If the company wishes to retain the advance quote discount beyond five years, it should provide actuarial support for each renewal beyond that period accordingly. The data should demonstrate the significance of the variable in the model as a whole, rather than demonstrating solely different loss history when considered in isolation.

Conclusion:

Submitted Date	12/04/2025

Dear Deborah Larsen,

Introduction:

Thank you for your submission. The following issues will require your attention.

Objection 1

Comments: Please amend the rate schedule to indicate the overall rate impact of the changes made in this filing for applicable insureds. Please clarify whether the company continues to be open to new business.

Objection 2

- Manual Pages, I-3; 50-1; 50-2; 51-9; RP-1A; RP-15A-RP-25A (Rate)

Comments: Page 50-1:

Per the company, "Starting on the sixth renewal effective date, each policy will be assigned to Rating Group 1." Please clarify what rule corresponds with Rating Groups and the SERFF number where that material was filed with the Bureau.

RP-25A:

Please provide the Tenured Policy Group factor used for policy terms 1-5 as part of the rate manual and the factor used for Tier after five terms (presumably 1.00). The company's rate order of calculation appears to use both variables, regardless of renewals with the company.

Objection 3

Comments: The following objections relate to Rule 51. Given the required changes, the company should resubmit all pages associated with this rule.

Please clarify how an insured can dispute data they believe is incorrect regarding information used in this tiering mechanism (for example, Prior BI limits).

Please refer to Administrative Letter 2025-01. The company's tiering mechanism as used throughout Rule 51 will require amendment. AL-2025-01 prohibits the use of accidents in rating at the vehicle level when accidents are also rated for in tiering. If the company wishes to rate an insured for NAF accidents or Comp claims, it cannot do so at the policy level while also rating for any accidents at the vehicle level. Amend the rule and associated rates accordingly.

Objection 4

Comments: The following issues relate to previously filed material:

Throughout Rule 12, the company should change the reference of "violations" to "convictions."

Please refer to the previously filed material of Rule 38 (ALSE-131253762). It is the position of the Bureau that, unless the company can prove otherwise, there is no actuarial basis to extend the Advance Quote discount beyond five years. Amend the discount or provide actuarial proof for each year after five years accordingly. The information previously submitted by the company is insufficient, as it only takes into account one variable (rather than the multiple variables used by the company) and does not consider the impacts by year for insureds.

Please submit the updated pages for Rule 39. The Bureau has conflicting pages on file for the company.

Product Name:	AFCIC PPA		
Project Name/Number:	VA Discounts Revisions - Phase 2/RITM07063111		

Please amend rules 47 and 50 to amend "prior to every sixth renewal effective date" to align more precisely with the language of "once every three years" required in § 38.2-2234.B.

Please provide the complete Territorial Definitions for the company. In the currently filed edition of these definitions, there is an "area" column which no longer appears to be used in rating.

Dear Flora Worthington,

Introduction:

Response 1

Comments:

The overall rate level impact of this change was targeted to be 0%. The average rating factor of the newly introduced Tenured Policy Group matches that of the existing Tier rating plan for Number of Times Renewed (NTR) 6+ exposures. Please note that this book is no longer open for new business.

Related Objection 1

Comments: Please amend the rate schedule to indicate the overall rate impact of the changes made in this filing for applicable insureds. Please clarify whether the company continues to be open to new business.

Changed Items:

No Form Schedule items changed.

No Rate/Rule Schedule items changed.

No Supporting Documents changed.

Response 2

Comments:

Rating group is based on Rating Tier (Rule 51), and simply represents groupings of Rating Tiers, and there are discounts in the rating plan that are structured to vary based upon a policy's Rating Group (i.e., the Multiple Policy Discount). Because of this, a Rating Group assignment is still necessary for customers that are NTR 6+ on Tenured Policy Group. With this response, Allstate has revised RP-25A as requested. Please see the revised manuals provided with this response.

RP-25A:

Response 3

Comments:

If a customer wishes to dispute their policy characteristics, they are able to contact their agent or Allstate customer support, and a request form will be submitted which will trigger a manual review, and any evidence to the contrary will be reviewed and taken into account.

Claim history used in Rating Tier solely consist of non-chargeable/comprehensive claims, which are claims that are explicitly not charged for by the accident surcharge program (Rule 12), so there is no double counting of surcharges for these claims.

Related Objection 3

Comments: The following objections relate to Rule 51. Given the required changes, the company should resubmit all pages associated with this rule.

Please clarify how an insured can dispute data they believe is incorrect regarding information used in this tiering mechanism (for example, Prior BI limits).

Please refer to Administrative Letter 2025-01. The company's tiering mechanism as used throughout Rule 51 will require amendment.

AL-2025-01 prohibits the use of accidents in rating at the vehicle level when accidents are also rated for in tiering. If the company wishes to rate an insured for NAF accidents or Comp claims, it cannot do so at the policy level while also rating for any accidents at the vehicle level. Amend the rule and associated rates accordingly.

Response 4

Comments:

Regarding the Future Effective Date Discount (Rule 38), please note that this company is closed and there is no longer new business being written with this discount, and any revision to this discount would only cause disruption to existing customers. With that said, Allstate does believe the discount is still supported based on recent experience. Please see Attachment A of this response for a calculation of loss ratio relativities which demonstrate that the current 5% discount has support to be even deeper for qualified customers that have been with us for longer than five years.

Allstate has revised Rule 12, Rule 47, and Rule 50 as requested. Additionally, the area columns from the Territorial Definitions pages have been removed to avoid confusion as area is not used. Allstate has also provided a copy of Rule 39 as requested. Please see the revised manuals provided with this response.

Comments: The following issues relate to previously filed material:
Throughout Rule 12, the company should change the reference of "violations" to "convictions."

Please refer to the previously filed material of Rule 38 (ALSE-131253762). It is the position of the Bureau that, unless the company can prove otherwise, there is no actuarial basis to extend the Advance Quote discount beyond five years. Amend the discount or provide actuarial proof for each year after five years accordingly. The information previously submitted by the company is insufficient, as it only takes into account one variable (rather than the multiple variables used by the company) and does not consider the impacts by year for insureds.

Please submit the updated pages for Rule 39. The Bureau has conflicting pages on file for the company.

Please amend rules 47 and 50 to amend "prior to every sixth renewal effective date" to align more precisely with the language of "once every three years" required in § 38.2-2234.B.

Please provide the complete Territorial Definitions for the company. In the currently filed edition of these definitions, there is an "area" column which no longer appears to be used in rating.

Request for Objection Response Extension

Comments:

Good morning, Flora.

My team has informed me that they will need additional time to put together some of the data being requested in the latest Objection. Would it be possible to receive a two-week extension to 1/29/2026 for providing our Objection Response for this filing?

Thank you very much for considering.

Respectfully,

Deborah Larsen
