Dear Deborah Larsen,

Introduction:

Thank you for your submission. The following issues will require your attention.

Objection 1

- Manual Pages, RP-22A (Rate)

Comments: If the year of a vehicle is indicative of loss cost, then to blanket a range of vehicle years with a flat percentage is not acceptable or actuarially justified. The company must amend the factor to reflect the model year factor for a given year. It is not acceptable for the company to increase rates for a 1995 and 1991 vehicle by 8.6 and 6.7%.

It would be acceptable for the years to be grouped together for older model vehicles in general - it just is not acceptable or justified actuarially to automatically raise the rates for older vehicles using the current method.

The company may use its rates as written for 10/1 but must amend this filing to reflect the necessary changes as soon as able and submit a post submission update to reflect those changes. Additionally, the company should update the Rating information schedule to reflect the changes seen in rates for individuals.

Conclusion:

Should you have any questions, please feel free to contact me at flora.worthington@scc.virginia.gov.

Sincerely,

Flora Worthington

Would you please let me know when our Objection response is due? Given the two weeks for our other model year update filings I would think we are looking at the same time frame, but do not want to make any assumptions.
