Filing Description:

With this filing, Allstate is proposing an overall 33.8% rate level change to the Allstate Insurance Company (AIC) Homeowners - Condominium (CON) program in the Commonwealth of Virginia.

The overall rate level change has been achieved through revision of the Rate Adjustment Factor and Reinsurance Rate Adjustment Factor. Further information regarding these changes can be found in the enclosed attachments.

This change will apply to new business written on or after 12/2/2024 and for renewals effective on or after 1/16/2025.

This filing company is closed to new business. Allstate has, however, supplied a new business effective date for special business cases. For example, to accommodate a new business policy in the same company to a policyholder that has been reinstated, or if a cancel/re-write is necessary.

Dear Flora Worthington,

Introduction:

Response 1

Comments:

The filed indication developed in Attachment VI, Exhibit 1.1 represents the overall state rate need for fixed expense, variable package premium, retained risk premium, and additional coverages combined. Allstate broke out these components on the rate abstract to show the selected change to each component, but an indicated change for each component individually was not derived. It is standard practice to reflect rate need via a RAF (Rate Adjustment Factor) change, which is equivalent to a base rate revision. The Variable Package Premium is affected uniformly by a RAF change, and therefore receives the positive rate needed to achieve the overall indicated change. Taking the entire rate need in Variable Package Premium implicitly assumes no indicated change for fixed expense premium, additional coverages, and retained risk premium.
