Comment: For each rating table the company must amend the rule manual to include a rule to support the table. For example, a rule is needed for all Household Composition tables.

A new rule and rate manual is needed which not only includes the following amendments but removes the mention of any other underwriting company. The manual pages should only indicate Encompass Insurance Company:

- The company may not use unknown or missing variables at all in rating. All must be removed. The company must reach out to the insured to secure all necessary information. If at such time the insured refuses to provide the information. The company may then rate accordingly.
- The Policy Group Factor rule and rate table require amendment. The company must amend the rule manual to include how a no-hit or thin file is assigned. The unknown variables must be removed from the Policy Group Factor rate tables.
- The company must amend Rule 20 to remove from B. the qualification that there has been no lapse in coverage. If the company will continue to utilize the insured's tenure in rating, at 36 months with the company, regardless of lapse, the insured must be given the benefit of the longer tenure if the company did not issue a new policy entirely. The company must remove limits from rating after 36 months.
- Rule 45 requires amendment to include if the insured has not requested the score be re-run within 36 months of the initial score, the DynamicDrive score will be re-run. The company may not utilize the same score indefinitely. Please additionally clarify the SERFF filing number which the model was filed in.
- Rule 48 requires amendment to outline how the price group amount is determined, including how often it is re-run and the data source used to finalize the amount.
- Rule 55 requires amendment to clarify the difference between Fixed Expense- Parts 1 and 2. The rule also requires amendment to clarify when the fixed expense is re-run to account for updated information or changes made to the policy such as adding a package or removing vehicles.
- A rule is required to support the Amount of Insurance Factors.

The Bureau may have additional objections that arise based on the company's forthcoming filing which amends these noted items. The filing must received on or
